

Product Description

- Designed to seal openings in new and existing raised floor cutouts to block bypass airflow and maximise cooling system efficiency.
- The 152mm KoldLok Round Grommet allows large cable bundles or PDU plugs to be pulled through the usable area.
- The Split feature of the KoldLok floor grommet allows product installation or removal without disturbing cables.
- The Grommets contain no loose or partially fastened parts.
- impact resistant and durable.
- New, Hybrid Brush Technology (HBT) offers exceptional sealing and airflow management, unsurpassed by other leading brush products on the market.
- Compliant with directive 2002/95/EC of the European Parliament and the Council on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electric Equipment (RoHS).

Specifications

Model:	46-40003
Cutout:	152mm
Colour:	Black
Overall diameter:	192mm
Overall Depth:	48mm
Usable Cable Entry:	14,548 sq. mm
Sealing Type:	Brush Technology / Membrane
